

TOA FLUSH CEILING MOUNTING BRACKET C-BC511U-S

DESCRIPTION

The C-BC511U-S bracket is designed to be exclusively used for flush ceiling mounting of TOA's combination camera. Use this bracket when mounting the camera to the ceiling surface where the fixing screws cannot be securely installed, such as on the plaster panel of the dual-construction ceiling. Also, use this bracket to minimize the exposure of the camera. The bracket is used to make it difficult for individuals to see the camera's orientation.

SPECIFICATIONS

Transmissivity	Approx. 20 % *
Finish	Bezel: PC/ABS resin, cool gray Dome cover: Acrylic resin, smoked Bracket: Aluminum, black, paint Surface-treated steel plate, black, paint
Dimensions	ø250 × 282.7 (D) mm (dome external diameter: ø125 mm)
Weight	1.2 kg
Accessory	Safety wire ---1, Pattern paper ---1

* As a general guideline, the minimum object illumination of the camera equipped with the Flush Ceiling Mounting Bracket is approximately 5 times that of the camera without the bracket.

Note: Be careful when installing the camera with this bracket in low illumination location as the cover may cause camera sensitivity to decrease.
