■DESCRIPTION
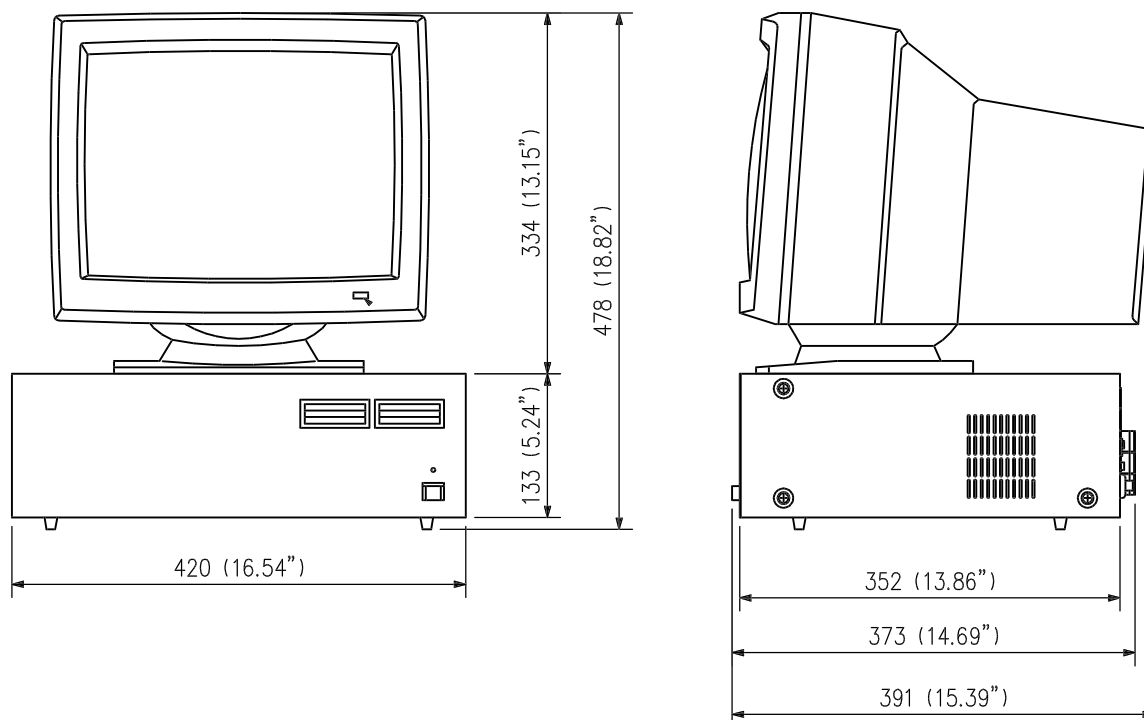

This unit is a computer system to control whole system operated by TOA orignal data format. The system consists of color display with touch panel and main unit designed by VME architecture.

■SPECIFICATIONS

Power requirement	AC mains 50/60 Hz
Power consumption	Max. 260W
Addressability	640 X 400 dot matrix (Dot pitch : 0.39)
Colors	16 colors from a palette of 4086
Operation	Touch panel
CPU	68HC000, 10MHz
Interface	TOA orignal data format ··· AMI 9600 bps RS-232C
Weight	18.8 kg (41.45 lbs.)

■APPEARANCE

334 (13.15")   478 (18.82")   133 (5.24")   420 (16.54")

352 (13.86")   373 (14.69")   391 (15.39")
