

JUNCTION PANEL

JP-1216

Thank you for purchasing TOA's Junction Panel.

Please carefully follow the instructions in this manual to ensure long, trouble-free use of your equipment.

1. GENERAL DESCRIPTION

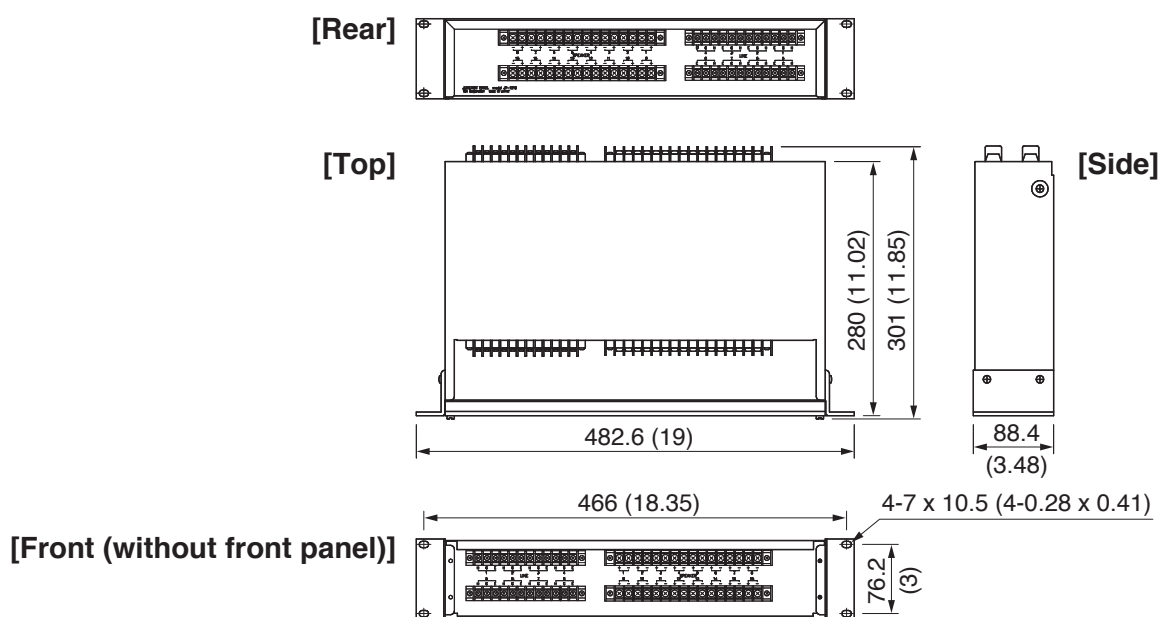

The JP-1216 is a junction panel for connection of rack mounted equipment to external equipment. Connect rack mounted equipment to the rear-mounted terminals, and external equipment cables to the front-mounted terminals after removing the front panel.

2. INSTALLATION PRECAUTIONS

- Be sure to mount the unit in a component rack when using the unit. (2-unit size)
- Do not connect other equipment other than sound equipment.
- Do not use the LINE terminals located on both front and rear chassis for other than signal lines. The terminals are interconnected with a 2-core shielded cable.
