

DESCRIPTION

The C-A771DM Smoked Dome Cover is specially designed to be used in conjunction with TOA's Combination Cameras.

The Dome Cover is used to make it difficult for individuals to see the camera's orientation.

SPECIFICATIONS

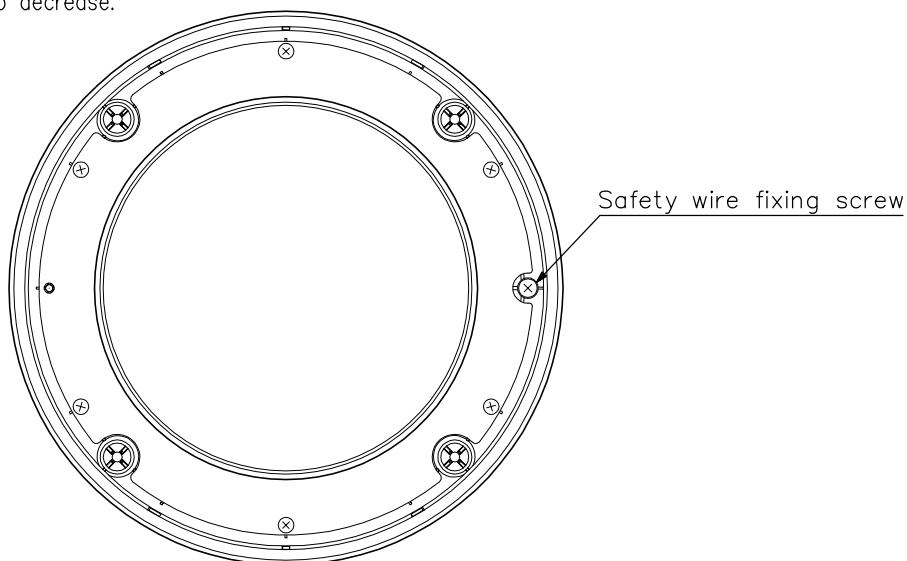

Transmissivity	Approx. 30% *
Finish	Dome: PC resin, smoked Frame: PC resin, light gray
Dimensions	ø219.8 × 138 (H) mm (Dome external diameter: ø150 mm)
Weight	450 g

* As a general guideline, the minimum object illumination of the camera equipped with the Smoked Dome Cover is approximately 3.3 times that of the camera without the cover.

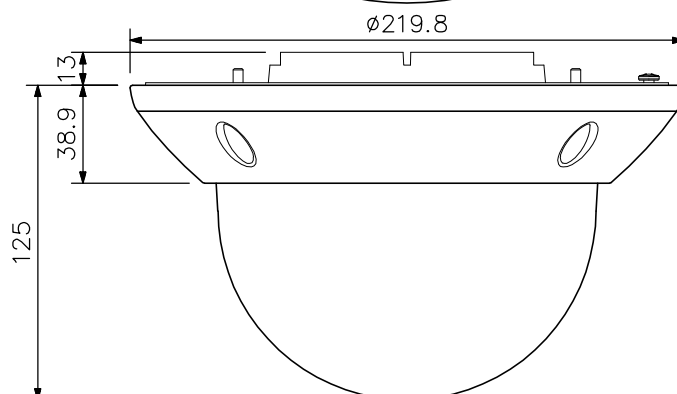

Note: Be careful when installing the camera with this cover in low illumination location as the cover may cause camera sensitivity to decrease.
